(USE A MULTIPLE OF 16" FOR EASY MOUNTING)

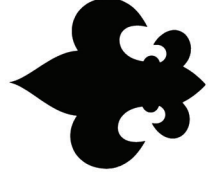

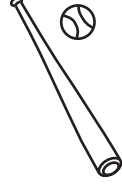

- NOTES:
- 1- DIMENSIONS SHOWN ARE WHAT I USED. NONE A CRITICAL.
 - 2- THIS DESIGN IS INTENTIONALLY VERY PLAIN. SCROLLING OR ROUTING EDGES CAN ADD A LOT OF STYLE THUS SHOULD BE CONSIDERED IN YOUR PROJECT.
 - 3- AROMATIC CEDAR AND REDWOOD MAKE AN INEXPENSIVE MATERIAL CHOICE.
 - 4- KIDS LOVE SEEING THEIR NAME AND THEY LOVE TO 'OWN' STUFF. THUS I ROUTED MY GRANDAUGHTERS NAME ON THE ONE I BUILT.

Planner Holder

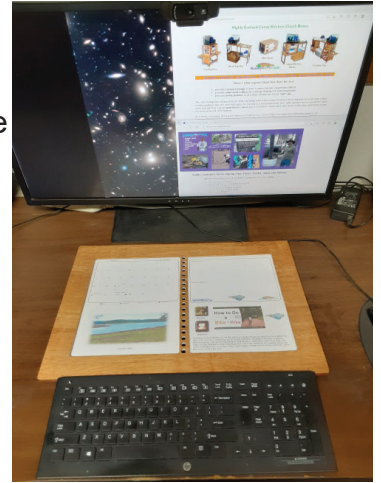

EXPLODED VIEW

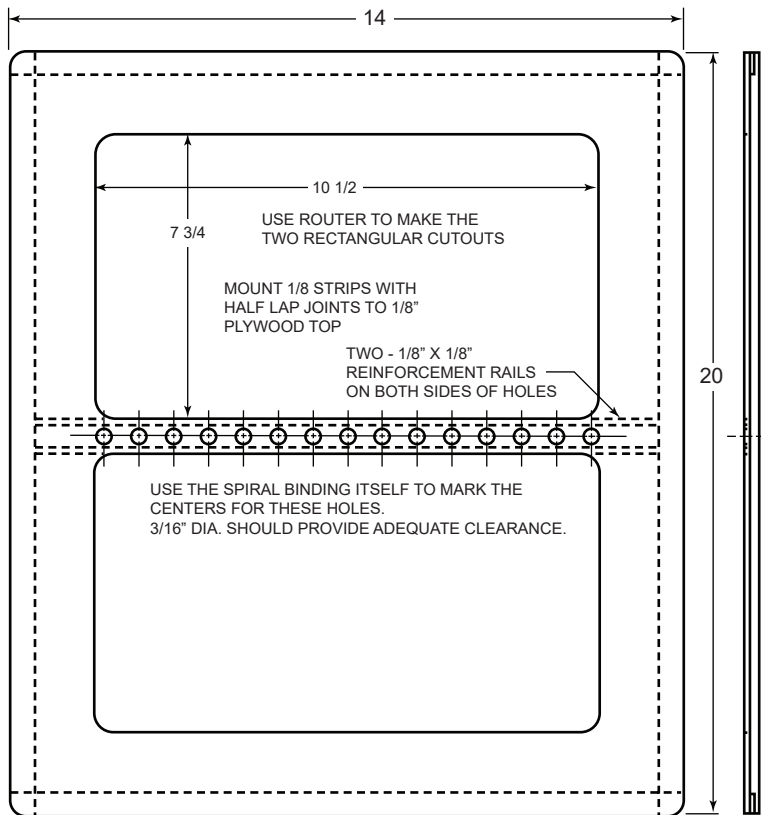

This is a two piece planner holder. It's specifically designed for our Go Camping Calendar/planner (Can be download at www.camping-tips.com) but could be used for any spiral bound book printed on 8 1/2 x 11 stock.

It's meant to be a replacement for those big calendar pads that sit flat on a desk top. While those things are nice to have, they have not been designed to take with you. With this configuration your planner can be, camping or otherwise.

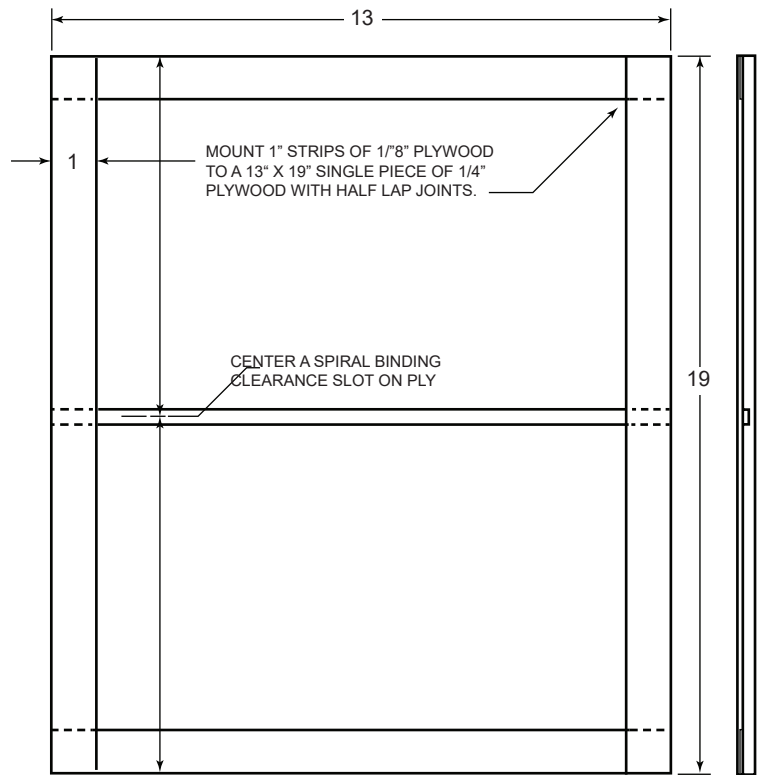

Your 'Desk Jokey' type folks might really appreciate this or something similar. I have the distinct feeling this notion is going to evolve into something a little different very shortly. I already have a few notions in mind.

See what you can come up with but keep in mind the idea is a calendar on the desk that can also easily be taken somewhere else.

BASE

BASE MAY REQUIRE SANDING OR SLIGHT TRIMMING SO THE TOP CAN HAVE ENOUGH CLEARANCE TO SLIDE OVER THE BASE
